

Creating an exceptional patient experience.

We're listening to your ideas and requests to develop the software that allows your practice to run efficiently and be as successful as possible.

patientNOW has developed advanced functionality for our patient portal.

ADVANCED FUNCTIONALITY INCLUDES:

SECURE MESSAGING

- Patients can easily reply after reading message
- Increased # characters allowed

ALLERGIES + MEDICATIONS + HEALTH HISTORY

- Yes / No added for each section to support medical liability carriers' requirements
- Supported browsers added to Log-on page

PERSONAL MEDICAL HISTORY

- Now a configurable list
- Fewer fields required for patient ease-of-use
- Insurance Personal Medical History and Family History tabs can now be hidden

PATIENT CAN LOOK UP USERNAME & PASSWORD

SIGN CONSENT FORMS ELECTRONICALLY

To see a demo of the patient portal in action or to hear what other clients have to say about using mypatientNOW, contact Steve Holmes at 720-214-7145 or sholmes@patientNOW.com.

mypatientNOW

PATIENT PORTAL

mypatientNOW patient portal allows patients to conveniently enter their own medical history and information right from the comfort of their home on their tablet PC, Mac, iPad or mobile device. Patients save the time normally spent filling out paperwork in the waiting room before their first visit. This option also helps to reduce inaccuracy and saves time for office staff as well.

To ensure complete privacy, patients create a login and password to their own private portal on mypatientNOW. All access functions are guaranteed secure in accordance with strict HIPAA privacy regulations.

Patients have the ability to return to their account via 24/7 access to view their records and edit their personal information. A user-friendly dashboard navigates to patient information, personal medical history, and more.

Medical staff can quickly reference patient allergies and medications and insurance information, as well as signed consent forms.

ENDORSED BY

PRACTICE BENEFITS:

- Easy to learn and use
- Saves staff time
- Creates electronic record
- Eliminates errors
- Increases patient satisfaction
- Increases patient referrals
- Provides an exceptional patient experience

PATIENT BENEFITS:

- Quick and easy to use
- Saves time and reduces redundancy
- Provides personal convenience
- Safe and secure
- 24/7 access to records
- Easy to edit information
- Provides a positive experience

HEIDI GILCHRIST, MD | *Gilchrist Aesthetic and Medical Dermatology*

"With the mypatientNOW patient portal, remote completion of the patients' demographics, insurance information, and consent forms alone has cut my front desk staff's work for a new patient to almost zero. This has markedly decreased patients' perception of time wasted waiting while my staff entered their data. Plus, it makes my practice seem very modern and efficient to new patients."
